“I had the opportunity to meet Tony Burroughs, author and co-founder of Intenders of the Highest Good, who told us stories in front of a crackling fire on a cool, rainy evening. He is an extraordinary man, bringing a strong, calming presence into any room he enters. I urge you to check out Intenders at www.Intenders.org. May you begin consciously manifesting your life, and getting together with other like-minded people who are supporting each other in doing the same. Read the article in this issue that explains Intenders philosophy and conscious communities. It is amazing to think what this world can be like with millions of people who are conscious and purposeful about what they are doing and where they are going.” ~ Pamela Boyd Bombyk, Editor/Publisher

The Bridge ~ Your Power

What you are looking for is what you are looking with

*Harness the Power of Intention in your life so that you can create a world that is always in support of you. Daily email message from the eBook **The Bridge** by Tony Burroughs. Sign up: www.Intenders.org*

The Bridge was created to act as a way for you to move, as easily and effortlessly as possible, from the mainstream to the magical. It has been purposely set up to do three things at the same time: **first**, to empower you to reach your highest potential; **second**, to demonstrate the great benefits in coming together in community, and **third**, to act as a guide for **The Code** so that you reawaken your conscience and begin to love, honor, respect, and care for your fellow travelers once again.

And that is our intention for you - that you take these tools and do what you came to this beautiful, abundant Earth to do. We congratulate you for having the courage to take these steps into your own power. Now, as we prepare to offer you **The Bridge**, we leave you with these few words of encouragement . . .

Your joy walks with you every step of the way. You need look no further than that which is your own being. The world would have you think otherwise, and yet, what you do, how you think, and what you feel is entirely up to you. You are truly a magnificent entity with powers lying dormant and feelings, so sublime, ready to burst forth like a

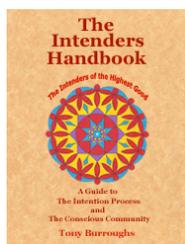

young flower which spreads its petals for the first time to greet the morning summer sun.

How long will you wait before you see yourself in your highest light and do what makes you truly happy? What will it take for you to open your heart and radiate outward the ocean of love which lies within you? You have been bound up too long, shackled to your fear, imprisoned by ghosts who are not real unless you make them so. The world needs you to be happy, to shine your light on all that you see, to laugh without limit, to touch the hearts and minds of every man, woman, and child who come your way.

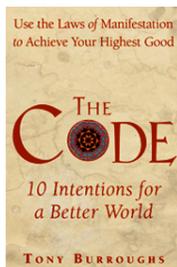

Take a chance now and live life like you've always wanted. Envision yourself throwing off the fetters of fear, and calling unto you the glory that is yours by right of birth. Let your joy blaze like a fire in the night. That's what the world needs from you.

And, more than that, that's what you need from you.

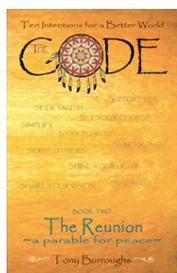

From *The Code: 10 Intentions for a Better World*

The Intenders Handbook: A Guide to the Intention Process "To the men and women who can manifest whatever is needed in their lives, it doesn't matter how scarce things appear to be or what the newspapers and TV are saying. The Intenders of the Highest Good step well aside of the perpetual dramas that are going on all around them, while manifesting a world of their own choosing - a world of peace and comfort. They live happily because that's what they've intended to do."

The Code: 10 Intentions for a Better World presents us with a true, workable solution for the challenges facing our world today. Based on a new Code of Conduct that anyone can relate to, it is full of real life stories uniquely designed, first to help us become self-empowered and more proficient at manifesting so that we are no longer at the mercy of people and forces outside ourselves; and second, to provide a simple tried-an-true format for coming together in community so we can create the peace, freedom, and high quality living environment that we long for.

The Reunion: A Parable for Peace is the second book in The Code series. It is a fast-paced, full-length adventure novel which will show you exactly what we can do, both individually and collectively, in order to achieve the peace and prosperity that we deserve. Based on The Code, it's the story of Rob McCoy and Trish Marin, two young people caught up in today's headlines who face their challenges by integrating the Ten Intents of The Code into their lives. The Reunion is spiritual story-telling at its finest!

The Five Easy Steps

1. Test the Intention Process and Be Open.
2. Get your first "win" and acknowledge that it works by expressing your gratitude.
3. Develop your trust by practicing and getting more "wins."
4. Notice that your trust turns into a "knowing" that you can manifest anything you desire.
5. Have fun, stay filled with gratitude, and always remember the Highest Good.

More Praise for Tony....

It all begins with The Code and its Ten Intentions for a Better World. No matter who you are or what you believe, the power to manifest is yours ~ from an abundance of personal energy to a dream job, from turning around a serious illness to meeting the love of your life, from realizing sudden success in your business to starting a new one when you never thought you could. Follow this process to disconnect from distraction, calm your mind, and focus on intended outcomes, and you will soon discover that everything is possible.

“We are using the Intenders Circle process and seeing amazing things happen. This is the practical application alluded to in The Secret and is the rest of the process you are looking for.”

~ Dan Hunter, Humanity’s Team, Texas State Coordinator

*“Tony Burroughs reaches out through his Code and takes the hands of all those who long to ‘live with intention’ In this way, Tony lays footprints for earnest souls to follow. His visions, his poetry, his call to intentional living ring with lyricism and both idealism and practicality.” ~ Mary Anne Radacher, author of *Lean Forward Into Your Life**

“The Code was written from the heart and can awaken us to realize how creative and even ~ yes! ~ magnificent we all are. Tony Burroughs takes the best of the perennial philosophy ~ the wisdom of the ages ~ puts it into language we can all understand and enjoy. This book can change your life and help you realize your highest potential.”

~ Marc Allen, publisher, New World Library, and author of *The Greatest Secret of All*

“If we are to row and prosper as evolved human beings, our destiny bids us to learn two things as quickly as possible. First, we must begin to stretch the limits of one very important piece of information ~ namely, that our thoughts create our future. And second, we need to set aside our differences and come together in community. Whether this community is reflected in our work environment, our religious and spiritual ideologies, our education institutions, our national and global identities, or within the close circle of friends and neighbors who surround us daily, there is a distinct advantage to getting to know each other better, to become more available for one another, of being in service to others.”
