

We're starting an Intenders Circle And You're Invited!

The Intenders of the Highest Good have created a simple, but very empowering format for bringing people together to manifest their dreams. We sit in a circle and state our intentions and what we are grateful for. That's all there is to it. After that, all you have to do is be open to receive.

"We started out with four of us sitting around a table on the patio once a week. We'd go around the circle and each of us would say our gratitudes and then our intentions for the things that we desired to manifest in our lives. Pretty soon, we were getting phenomenal results, a bunch of our friends had joined us, and the feeling of being part of a family had awakened in all of us. There really is strength in numbers!"
